Subject: Arkwood, Inc. Superfund Site Visit

Jean,

For your information and planning, the following ADEQ staff have accepted the invitation to the October 16th 2013 Arkwood site visit:

Hazardous Waste Division, Technical Branch

Mark Moix, Engineer
Annette Cusher, Engineer Supervisor
Grant Kneebone, Geologist
Charles Johnson, Geologist
Dianna Kilburn, Geologist Supervisor
Doug Ritchie, Risk Assessor Supervisor

Water Division

Mary Barnett, Ecologist, Water Quality Planning
Sarah Clem, Water Quality Branch Manager

If time and resources allow some of the staff have requested to observe the sink hole area, the nearby railroad tunnel (to observe surface exposures of local geological features such as fractures, joints or bedding planes), New Cricket Spring and the primary ozone treatment station.

Due to the pending government furlough, there is a possibility some of the attendees may not be present on the day of the site visit.

I will currently be out of the office. If you have questions or concerns please contact Annette Cusher at 501-682-0841 or Cusher@adeq.stat.ar.us , or Dianna Kilburn at 501-682-0844 or KILBURN@adeq.state.ar.us .

Thank you,

Mark Moix, PE
